

Children's Council Responds to COVID-19/Coronavirus

In accordance with directives from Mayor London Breed, the Department of Public Health, and the Office of Early Care & Education, **Children's Council offices are closed.**

Although our offices are closed, we do have staff working remotely and will do our best to answer questions as soon as possible. You may call 415-276-2900. Thank you in advance for your patience during this time.

If you're at home with your family, visit our new [Children's Council Online Help Center](#), which we're continually updating with a full range of articles about the latest guidelines, community resources and activities for you and your kids.

For family and provider workshops during this time period, we are working to find creative solutions to provide these programs, while adhering to current guidelines. Some workshops are being rescheduled, others are being presented online or by conference call. If you aren't already, [sign up for our email newsletter for family and provider workshop updates](#).

If you have urgent questions about workshops, you may contact the program organizer via the workshop information page. Visit our [Family Workshops webpage](#) or [Provider Workshops page](#), click on the workshop in question, scroll down to the workshop organizer's name and click on "contact."

We will continue to monitor the situation closely. Thanks for your patience and understanding during this time.
