3. What happens when an application is submitted?

Once your application is received and assessed for eligibility, you will receive a Notice of Action listing the eligibility of each individual in your household. If additional information is required to make a determination, a worker may contact you by mail or phone to request the needed information. If we find that you are not eligible for Medi-Cal, and you have given us consent, your application will be also evaluated for the following programs:

- **Covered California** is where Californians can get brand-name health insurance under the Patient Protection and Affordable Care Act and see if they qualify for financial subsidies from the federal government to help them pay their monthly premiums.

- **Healthy Kids** is a health insurance program for children who cannot get other publicly funded insurance programs. The County Children’s Health Initiative Program, also called CCHIP, is a part of the Healthy Kids program in San Francisco. You may qualify if you are not eligible for no-cost Medi-Cal, meet income requirements, and are under 19 years of age.
• **Medi-Cal Access Program (MCAP)** is for middle-income pregnant women who do not have health insurance and whose income is too high for no-cost Medi-Cal. MCAP is also available to women who have other health insurance plans that does not cover maternity services or with a maternity-only deductible or copayment greater than $500.

4. **What is retroactive Medi-Cal and who can apply?**

Retroactive Medi-Cal covers unpaid medical expenses from the three months prior to the month you apply for Medi-Cal. If you have unpaid bills from the three previous months, enter that information during the application process. If you qualify for Medi-Cal, you will also be evaluated for retroactive coverage. You will have to provide some basic information about the past months to qualify; a Medi-Cal representative will contact you and explain the process.

5. **What if I have other health coverage, can I still apply for Medi-Cal?**

Yes. Your health plan or HMO will be billed for services it covers. Medi-Cal will be billed for services your health plan does not cover.

6. **Do I have to be a U.S. citizen to get Medi-Cal?**

No. U.S. Citizenship and immigration status is not a condition of eligibility. Assuming all eligibility requirements are met, U.S. citizens, and individuals with Satisfactory Immigration status are entitled to receive full scope Medi-Cal benefits. Undocumented eligible adults will have access to Emergency and Pregnancy related services.

*Note: All eligible children (up to 19 years old) are entitled to receive full scope Medi-Cal benefits, regardless of immigration status.*
